About 100 years ago, Emperor Franz Joseph I and Sigmund Freud were amongst the esteemed customers of Carl Suchy & Söhne, the leading watchmaker of the Habsburg Empire with workshops in Vienna, Prague and the Swiss watch-valley La Chaux-de-Fonds. In 2017, the legendary Austrian watch brand has returned: The automatic wristwatch Waltz N°1 combines a unique historical legacy with cutting-edge contemporary design and Swiss craftsmanship. Handcrafted over the course of seven months by watchmaker Marc Jenni, member of the A.H.C.I., the automatic timepieces are inspired by the minimalistic elegance of Viennese Modernism and available in strictly limited yearly production series.

NEW SERIES

After a sold-out launch series in 2017, the second limited series of 50 Waltz N°1 is out now. In addition to the four-classic black and white colour schemes, five watches of the new blue-steel version "Waltz N°1 Blue Danube", featuring a dark-blue dial, crown, and strap, are available.

FROM VIENNA TO THE WORLD

As Carl Suchy & Söhne continues to grow, cooperation with Austrian and international retailers is a top priority. In the meantime, selling directly via our Carl Suchy & Söhne Online-Shop and

through personal customer contacts allows us to pass on the savings to our customers, while retaining highest quality components, fine watchmaking skills and exclusivity. The Waltz N°1 retails at 7.850 Euros/ CHF 8.500.

WALTZ N°1

Inspired by Viennese Modernism from 1900, Waltz N°1 features a minimalistic design coupled with a deep love for the applied materials and an obsession for technological innovation.

VIENNESE DESIGN – The Waltz N°1's signature is the subtle guilloché pattern on the dial, which is divided in half by vertical and horizontal striping, as is the identically patterned „Waltzing Disc“ at six o'clock. Like the dance from which the watch derives its name, the second disc rotates in perfect circles, thus aligning with the dial's guilloché pattern once per minute – it is a tribute to Vienna's coffee house culture and the Viennese sense of time, in which the second does not count.

EXTRA FLAT MOVEMENT – Visible through the sapphire glass case back, the Waltz N°1 boasts an adapted movement by Vaucher Fleurier Manufacture with a gold-plated micro-rotor, allowing for the watch's extra flatness, light weight and outstanding wearing comfort. The mechanical watch is the result of an inspiring collaboration between Marc

Jenni, member of the Académie Horlogère des Créateurs Indépendants, designers Reinhard Steger and Milos Ristin as well as creative director and CEO Robert Punkenhöfer.

Please find more detailed information on the Waltz N°1's technical features in the press pack's Fact Sheet.

THE LEGACY:

ABOUT CARL SUCHY & SÖHNE

With Carl Suchy & Söhne, Austria's only historic luxury watch brand was revived after 100 years of beauty sleep. During the Danube Monarchy, watchmaker Carl Suchy and his sons earned the prestigious recognition of Purveyor to the Imperial Court, catering, amongst others, to Emperor Franz Joseph I and Empress Sisi. Sigmund Freud, the father of psychoanalysis, famously carried his Carl Suchy & Söhne pocket watch in his vest and regularly used it for hypnosis sessions. Over three generations the Suchy-Family kept their standing as the most important watchmakers of the Habsburg dynasty, delivering their watches to the imperial courts and the Austrian upper-class.
