PRESS INFORMATION
DECEMBER 2021

WHAT MORE DO YOU
NEED TO DISCOVER
VIENNA THAN A DAY
AND A NIGHT?

This autumn, Carl Suchy & Söhne introduces a very special limited edition featuring both the white and black dial of the characteristic Waltz N°1.

The Waltz N°1 Day & Night is the perfect companion for your discovery of Austria's capital, uniting the versatile faces the city has to offer: Visit the wonderful imperial sights during the day and set out for a night to remember in one of the many legendary night bars.

The automatic wristwatch Waltz N°1 Day & Night boasts clear lines and highest-quality materials. Flowing design transitions remind of the great designers and architects that shaped the design of Vienna around 1900. Like Yin and Yang, the seconds disc at 6 o'clock dances its circles, bringing together the seemingly contrasting colors in perfect harmony and then again dividing the dial into two perfect halves every full minute.

We would like to thank our trusted retailer Chronopassion Paris for inspiring us to create this daring watch.

The special piece is limited to ten wristwatches.
