WIEN 1822

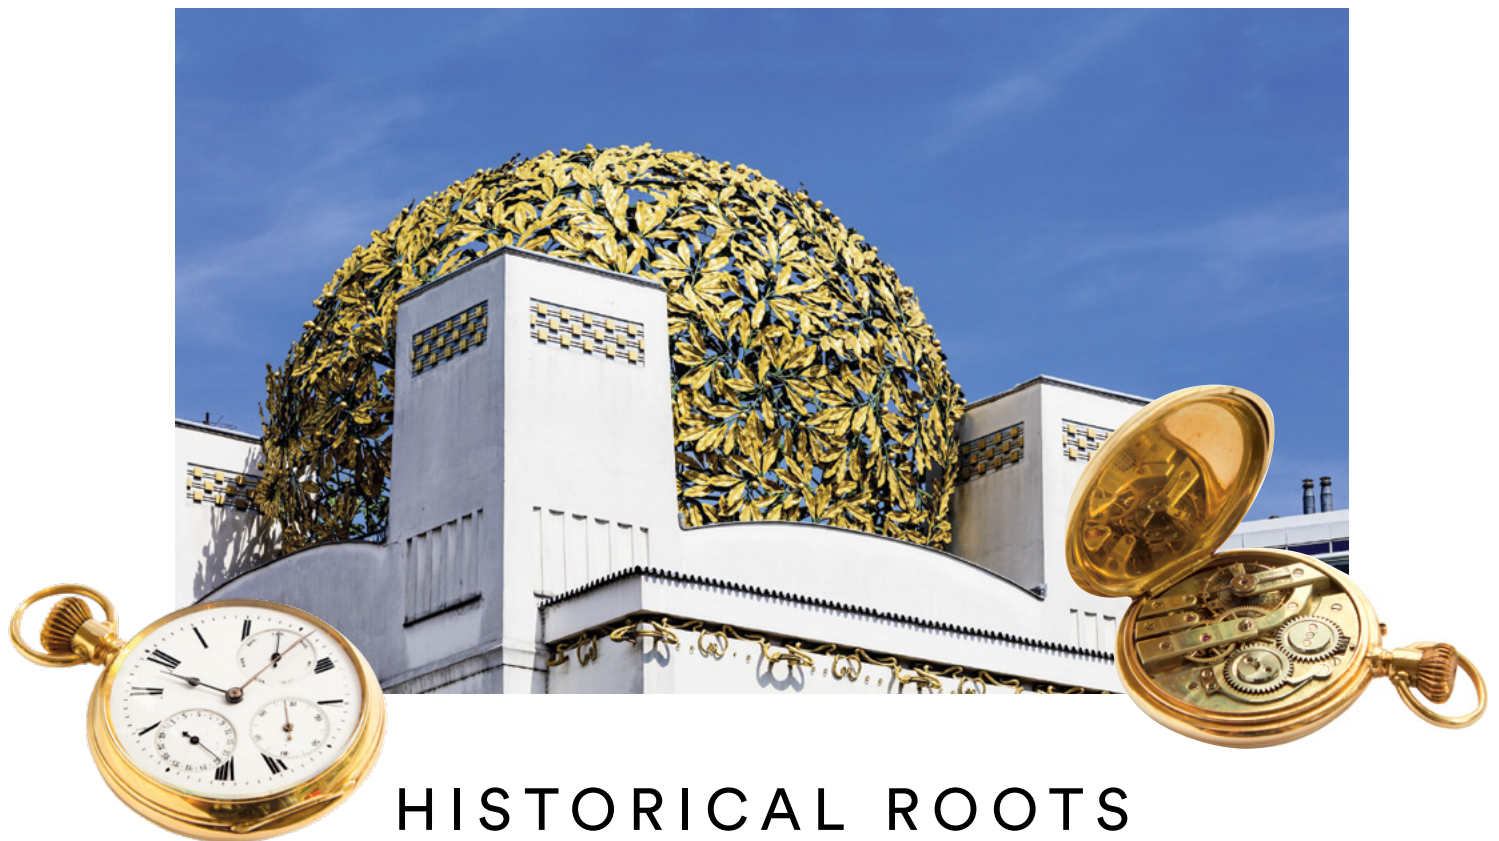

WALTZ N°1 GOLD

NOVELTY 2019

WITH A LIMITED SERIES OF WALTZ N°1
WITH 18K GOLD CASES, THE VIENNESE
WATCH BRAND PAYS TRIBUTE TO
THE PRECIOUS POCKET WATCHES IT
PRODUCED IN THE 19TH CENTURY.

HISTORICAL ROOTS

One hundred years ago there was only one address for luxury watches in the Austro-Hungarian Monarchy: Carl Suchy & Söhne. The first and for a long time only “Watch Purveyor the Royal and Imperial Court of Austria” provided the Austrian aristocracy and elite with selected timepieces. The watchmaker’s products – initially handcrafted in Vienna and Prague and later manufactured in the Swiss watch metropolis La Chaux-de-Fonds – were awarded at international watch fairs and gained popularity far beyond the empire’s borders.

Since returning in 2017, the Austrian watch brand has regained an international reputation worthy of its glorious past. With the latest creation, Carl Suchy & Söhne honor their historical roots: The Waltz N°1 Gold pays homage to the unique pocket watches that the company manufactured around 1900 – during the golden era of Viennese Modernism.

The Waltz N°1 Gold features a high-quality 18-carat gold case. Like the flagship model “Waltz N°1”, the gold version of the automatic watch is characterized by puristic elegance and clear lines.

The ultra slim automatic movement VMF 5401 (Swiss Made) by Vaucher Manufacture Fleurier features a power reserve of 48 hours and was adapted by Swiss watchmaker Marc Jenni – one of the most renowned contemporary watchmakers and former member of the Académie Horlogère des Créateurs Indépendants (AHCI) – to accommodate a rotating seconds disc at 6 o’clock, whose striped guilloché pattern matches with that of the dial once a minute.

In the context of Baselworld 2019, the Viennese watch brand presents two prototypes with a white and a black dial each.
