THE WALTZ N°1 MOLL AN ODE TO THE DARK BEAUTY OF TIME

Carl Suchy & Söhne is pleased to introduce a limited edition model of the Waltz N°1 collection this winter. The Waltz N°1 Moll, featuring a striking silver dial complemented by the iconic second disc in bold black, will make its public debut in February, 2024.

The successful Waltz N°1 represents the elegance of Viennese Modernism with clear lines and selected materials, inspired by the minimalist aesthetics of the Viennese star architect Adolf Loos.

With the Waltz N°1 Moll, the watch presents itself in a fascinating look. The design gives the watch a powerful form of expression in a profound and emotional minor key - known as Moll in Austria. The well-balanced interplay of contrast and shading symbolizes the musical expressive quality of a waltz in a minor key. The rotating second disc at six o'clock, the signature distinguish feature distinguishing feature of Waltz N°1, attracts attention in vivid black. Every full minute, the Waltz or second disc by Carl Suchy & Söhne harmonizes perfectly with the artfully guilloché pattern of the dial - a unique sight of perfect synchronicity.

This limited edition model lets the Waltz N°1 shine in a minor key - elegant and profound. It combines the timeless aesthetics and first-class craftsmanship for which Carl Suchy & Söhne is well known.

This special watch is limited to 10 pieces.
